Quiz - Statistics for Data Science

Type	:	Mandatory Assessment
Attempts	:	0/1
Questions	:	15
Time	:	1h 30m
Due Date	:	Mar 27, 7:30 PM
Total Marks	:	25

⊘ This Course Assessment is no longer accepting submissions.

Instructions ⌃

- There might be questions requiring you to use Python - please keep the Jupyter Notebook open when you start the quiz.
- Ensure there is a proper internet connection while taking up the quiz. Any breakup in the connection will automatically submit your quiz.
- Only attempt the quiz when you are prepared and have enough time on your hands to finish it.
- The quiz once opened, must be completed within the time frame provided. You CANNOT start the quiz, leave it unattended for an extended period of time and come back later to finish.

- No re-attempts will be provided if the quiz gets submitted for any of the above-mentioned reasons.
- Please ensure you attempt the quiz well before the due date. No extension will be provided for any quiz once the deadline is passed.
- If you face any other technical issues on Olympus, you should share the screenshot with your Program Manager so that the team can understand and resolve it on priority.

All the best!
